WORK EXPERIENCES / UNIVERSITY PROJECTS

Summer 2024, Camp leader for an elementary school (Bezons, France)

I manage groups of children, overseeing their activities and fostering a positive environment. I design and implement engaging recreational and educational programs tailored to their needs. Additionally, I prioritize ensuring the safety and well-being of all participants throughout these activities.

April 2024. development of an application in Java

In duo, we have developed a calculator in Java. In which we can do the calculations. We also had to manage Java exceptions, for example the division by 0. This project introduced us to GitHub

LANGUAGES/ INTERESTS/ OTHER

French : Native ; English : operational ; Spanish : beginner ; Arabic : beginner.

I enjoy playing online video games, especially competitive ones. The thrill of strategy, quick decision-making, and facing off against skilled opponents keeps me engaged. I appreciate the teamwork, the challenge of improving my skills, and the sense of achievement that comes from winning intense matches.
